Building Bridges Final 2014 01 16

Digital success isnâ€™t all about technology: The 2015 Digital Business Global Executive Study and Research Project by MIT Sloan Management Review and Deloitte identifies strategy as the key driver in the digital arena. Companies that avoid risk-taking are unlikely to thrive and likely to lose talent, as employees across all age groups want to work for businesses committed to digital progress.

Strategy, not Technology, Drives Digital Transformation

Information technology is revolutionizing products. Once composed solely of mechanical and electrical parts, products have become complex systems that combine hardware, sensors, data storage ...

How Smart, Connected Products Are Transforming Competition

Inspire Capacity Building Series. The Capacity Building Series is produced by the Literacy and Numeracy Secretariat to support leadership and instructional effectiveness in Ontario schools.

The Change Only principals who are equipped to handle a complex, rapidly changing environment can implement the reforms that lead to sustained improvement in student achievement.

The Change Leader. - GHAEA

100 years ago, a series of studies about the education of health professionals, led by the 1910 Flexner report, sparked groundbreaking reforms. Through integration of modern science into the curricula at university-based schools, the reforms equipped health professionals with the knowledge that contributed to the doubling of life span during the 20th century.

Health professionals for a new century: transforming

The Problem. The U.S. health care system needs reform, but too often experts focus on top-down solutions stemming from federal policy changes. Such efforts alone, however, cannot fix a wasteful ...

12 Essential Skills - balancedweightmanagement.com

John Hattie developed a way of synthesizing various influences in different meta-analyses according to their effect size (Cohen's d). In his ground-breaking study "Visible Learning" he ranked 138 influences that are related to learning outcomes from very positive effects to very negative effects. Hattie found that the average effect size of all the interventions he studied was 0.40.

Hattie effect size list - 256 Influences Related To

Whether babies' early relationships are largely positive or negative significantly impacts their ability to manage stress. From birth to age 3, stress can have an especially adverse effect on brain development (NRC & IOM 2009).

Caring Relationships: The Heart of Early Brain Development

Causality (also referred to as causation, or cause and effect) is what connects one process (the cause) with another process or state (the effect), [citation needed] where the first is partly responsible for the second, and the second is partly dependent on the first. In general, a process has many causes, which are said to be causal factors for it, and all lie in its past (more precise: none ...
