Once you have decided on a fence setback, the next step is deciding what to plant, where and at what spacing.. In the riparian margin between the waterway and fence, there can be up to three zones of plant types. Planting the upper and lower banks will improve water quality more than using a grass strip alone.

Ecosystem services are the many and varied benefits that humans freely gain from the natural environment and from properly-functioning ecosystems. Such ecosystems include, for example, agroecosystems, forest ecosystems, grassland ecosystems and aquatic ecosystems. Collectively, these benefits are becoming known as 'ecosystem services', and are often integral to the provisioning of clean drinking ...
