In What Caused the Financial Crisis leading economists and scholars delve into the major causes of the worst financial collapse since the Great Depression and, together, present a comprehensive picture of the factors that led to it. One essay examines the role of government regulation in expanding home ownership through mortgage subsidies for impoverished borrowers, encouraging the subprime housing bubble.

### **Project MUSE - What Caused the Financial Crisis**

The financial crisis was primarily caused by deregulation in the financial industry. That permitted banks to

engage in hedge fund trading with derivatives. Banks then demanded more mortgages to support the profitable sale of these derivatives. They created interest-only loans that became affordable to subprime borrowers.
