The demographics of China demonstrate a large population with a relatively small youth component, partially a result of China's one-child policy. China's population reached the billion mark in 1982. By 2017, China's population had reached 1.411 billion, the largest of any country in the world. According to the 2010 census, 91.51% of the population was Han Chinese, and 8.49% were minorities.
